Comprehensive Product Brochure

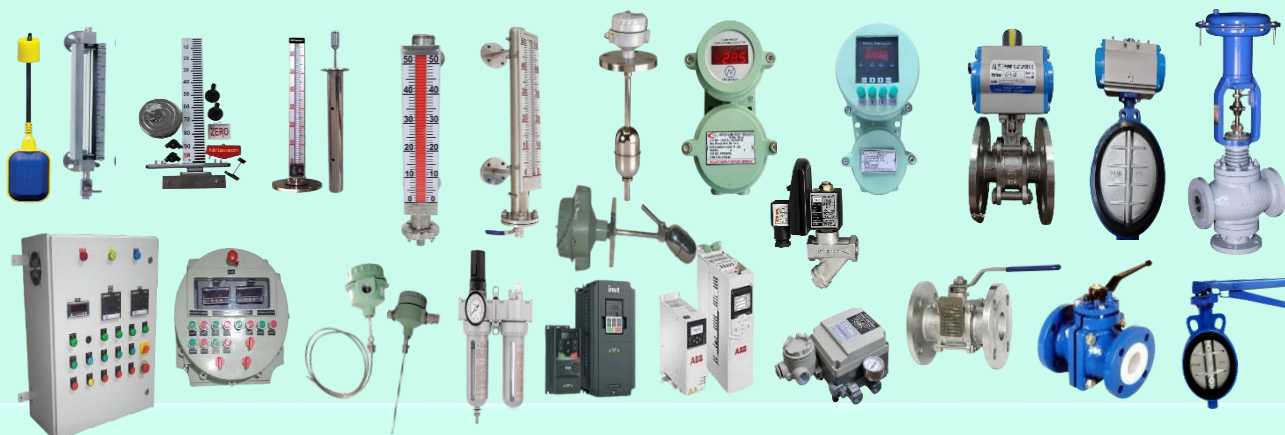

Nirlaxson Industries

Manufacturer of Paint & Coating Industrial Machineries & Process Plant Equipments

Nirlaxson Electrosystems

Manufacturer & supplier of Process Control & Measuring Instruments & Electrical Control Panels

Nirlaxson

About Nirlaxson :

Nirlaxson Industries, incorporated in 2019 and one of the leading manufacturer of Paint, Coating and Process & Chemical Plant Equipments & Machineries. We are offering **Paint Manufacturing Machines** that serves as complete production plants for paint production in the paint industries. We are also manufacturing **Process Plant Equipments** for Chemical & Pharma Industries.

These machines are manufactured in compliance with set industrial standards using graded stainless steel & mild steel, hastelloy and nickel. All the machines are specially designed and can also be customized as per the specified requirements of our clients.

Nirlaxson Electrosystems is our sister concern company and it's Manufacturer & Supplier of a wide range of process control instruments, automation system & Electrical Control panels etc.

We also provides **Lathe machine services** which include precision job works, specialized machining, and comprehensive repair or maintenance services for industrial equipment.

We trust in maintaining long lasting business relationships. Our customers have appreciated us for providing them with a highly accurate and qualitative range of our product and other services. We assure you of best quality at very competitive prices with committed deliveries. We look forward to receive your valued enquiries.

Our Mission

To provide high-quality, efficient, and cost-effective and customised products.
To develop and maintaining long lasting business relationships with our clients
To ensure 100% client satisfaction & consistently improve our services.
To maintain professional relationships with our committed guards by encouraging ongoing communication to ensure the greatest level of performance.

Our Aim

Our Company aims to achieve 100% customer satisfaction through uninterrupted and timely delivery of products at an extremely affordable price range.

Vision

Our vision is to build on our heritage of product excellence and technological innovation to offer the best quality and most dependable products and services to our clients.

Team / Manpower

We have a team of experts, who utilize their expertise to meet the variegate demands of the clients. Our engineers have immense industry experience and knowledge. They constantly innovate and upgrade the range to manufacture products such as process instruments and industrial process instruments according to the set standards so that they can meet the international parameters. Owing to them we always offer qualitative range in the market. This helps us in satisfying the demands of long listed quality conscious clients.

Our primary objective for The Nirlaxson Group is to provide only the very best in products & service and we feel confident that you, as a client, will be more than satisfied with our range of products and services.
